

To all members of the Christian Education Network

It has been my joy and privilege to have been an APCE representative to the group working with CEN on the agreement between CEN and APCE. We have been able to share in some of your grief that comes with transitions; we have also looked to our future affiliation with great anticipation and hope. The most wonderful part of the process is the affirmation that the passion and values of CEN and APCE are so aligned with one another.

I want to express my sincere welcome to each of you to the Association of Partners in Christian Education. I have been an APCE member for many years. From my first annual event, when I knew no one in a ballroom full of people to having served as President of the association, I have learned so much and developed wonderful relationships. The sincerity of the members of APCE in their desires to further the work of Faith Formation/Christian Education in the Church has been for me life and career changing. My prayer is that you will know that you are welcomed in APCE and will find colleagues and friends to learn from and to work with in our shared ministry.

Renda R. Brinson
Past President APCE
Certified Christian Educator (PCUSA)
Director of Charlotte Resource Center
